Keys to Successful Support Services

- ◇ *Everyone is capable of positive change if given the right types and amounts of support.*
- ◇ *All human beings deserve to live lives of quality and fulfillment.*
- ◇ *Most complex behavior can be broken into small, understandable parts.*
- ◇ *In order to change, people need hope, encouragement and support.*
- ◇ *Developing a respected role within the community is one of the greatest factors for success.*
- ◇ *Try something new— doing more of what has not worked in the past is not likely to work in the future.*
- ◇ *Trying to control others often leads to negative feelings, power struggles and challenging behavior.*

Families and Communities Together

Child & Family Support Services, Inc. (CFSS) specializes in helping individuals and families with the most complex behavioral health needs live successfully in the community. Our goal is to help youth and their families live lives of quality and dignity and develop an important role within their communities.

The Families and Communities Together (FACT) project is a new initiative between *Community Partnership of Southern Arizona (CPSA)* and CFSS*. Our primary goal is to help youth with the most complex needs live safely and successfully at home. This includes helping avoid placing youth outside of their home and returning them to their families and communities.

In addition to the full array of Support and Rehabilitation Services, we provide other services as requested by the Child and Family Team (CFT). These services include family and individual counseling and assistance with the self-administration of medications.

Flexible Services

Our services are customized by the Child and Family Team (CFT) to be offered when, where and in a way that best meets the needs of the family. We do not set arbitrary limits on the amount of services or length of time required to successfully support a family; instead, the amount is designed by the CFT and adjusted regularly.

Who is Eligible (Title XIX/XXI)?

- ◇ Youth ages birth through seventeen years of age.
- ◇ Youth enrolled in a Comprehensive Service Provider (contracted through CPSA).
- ◇ Youth currently placed out of home (in any level of care) or who are at-risk of out of home placement without intensive services.

Home and Community

All services occur in the home and community unless office based work is specifically requested by the CFT. We work in family homes, schools, neighborhoods, local community centers and other places designated by the CFT.

Frequently Asked Questions

Who should the Child and Family Team (CFT) refer?

Youth with the highest complexity of needs, who have been removed from their homes, are at-risk of being removed from their home and/or have multi-agency involvement.

Who can make a referral?

Child and Family Teams (CFT) - referrals must include completed referral form and necessary documents.

Who does the CFT Facilitator contact?

CFSS Tucson Office at 520-505-3464.

Will someone come to the CFT to help explain these supports?

Yes, a CFSS employee will join the team.

Where will CFSS provide support?

CFSS supports individuals with all types of unique needs throughout Pima County.

How long will supports last?

The duration and frequency of supports is determined by the CFT.
